Our Community Benefits from Electric Vehicles

Electric vehicles are energy efficient and fun to drive.

- On average, it costs about half as much to drive an electric vehicle, compared to an internal combustion engine vehicle.
- You can charge your EV at home, at work, or on the road. Skip the gas station and simply plug in your EV when you get home and have it ready to use the next morning.
- All-electric vehicles produce zero direct emissions and help improve our local air quality.
